PROP: The Production Place is a community career and technology education (CTE) center located in South West Baltimore Maryland in the 37,000 sq. ft. historic Lion Brothers building. The goal of this center is to provide students with real life experience and trade tools paired with community awareness and support to aid them in finding their own journey through CTE trade programs and fueling one of America's original maker cities.

Research

Baltimore has lost its pride and 1/3 of its population since 1950

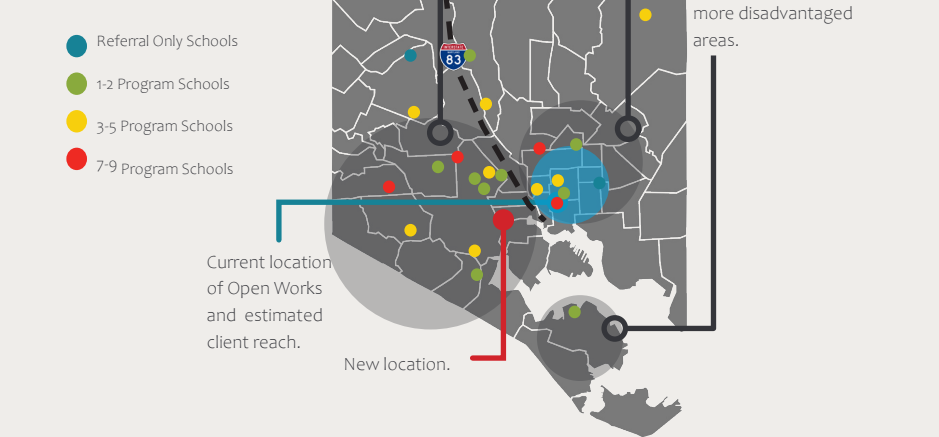

2015 saw 0 students proficient in Math in the BCPS system

Baltimore has over 16,000 abandoned buildings

71% of children in the Hollins Market neighborhood live below the poverty line

All 8 of Baltimore's fastest growing occupations can be learned through CT, but only 52% of BCPS offer any CTE programs, many only with 2 or 3 programs.

Concept & Design Drivers

Collective Resiliency & the Cog

Creating spaces that communicate with one another and co-exist enabling stronger community relationships and understanding of the importance of each trade in Baltimore. Each cog drives another along a resilient journey empowering each other and moving the world into the future.
